

New User ID From a Flown Cover - A292

Bob Szymanski (LM#145)

Have you ever "played" with your perfin and wondered what pattern is the prettiest, the most aesthetically pleasing? I believe that many years ago the Club asked members to vote on which pattern members thought was the best one. Whatever your choice, you are happy to have a copy of that perfin and even happier to have one or several copies on cover.

A292 is a "C" rated perfin and one that has always caused me to smile when looking at. I was happy to have the opportunity to purchase several on cover

recently. I realized, only when looking up the perfin pattern number, that the user was only known by city! So, here is a copy showing the now confirmed user of pattern A292..

A&G is now identified as Aisenstein & Gordon, Wholesale Jewelers in Philadelphia by this well marked Air Mail Special Delivery Cover. Mark up one more pattern user as identified

In Color
